

Mihir Maroju

Fullstack Developer

Work Experience

Fullstack Web Developer Intern
Mentor Match, an ed-tech company that matches students with mentors from top-ranking universities to answer their doubts.
March 2022-November 2022 (8 months)

Maintained, made changes and reviewed pull requests on the NextJS website, improved its SEO and increased website visits. I was 13, and the youngest employee in the company.

Lead Developer
JIPMER Scientific Advisory Committee,
Pondicherry
October 2021-December 2021 (2 months)

Worked on a webapp for a hospital in Pondicherry, to submit and review scientific manuscripts, using NestJS, Node.js and React.

Founder and Tech Lead, Pidgon Inc.
July 2020-Present (2 years)

- Worked with a team of my friends from school on Pidgon, where we made tools that make developing easier.
- PidgonScript, a utility library for node.js, gained over 1.2 million average weekly downloads.
- Robin, an English-like programming language for beginners, is currently in its beta run.
